

10:10

10th Oct 2010

A GLOBAL DAY OF DOING

Across New Zealand and around the globe, on Sunday 10 October - 10/10/10 - communities will be taking climate action. From bike workshops to community gardens, home insulation to tree planting...

By getting to work we'll show our leaders the world is ready for climate solutions.

What's 10:10? 10:10 is a global campaign to cut carbon by 10% a year - starting in 2010. Any person, family, business, school or other organisation can commit to cut 10% of their carbon. This is real practical action to reduce greenhouse gas emissions -not carbon offsetting or emissions trading.

JOIN IN BY -

- Registering at www.1010nz.com
- Flying and driving less often (use less oil)
- Putting food waste in the compost (not in the landfill where it creates methane)
- Buying less stuff made from oil or coal, such as plastics & packaging
- Recycling all useful materials such as metals and glass
